### **Reason for the Revision**

Projected consolidated operating income for full year 2015 is unchanged from the prior full year forecast due to significant offsetting factors. On the positive side, second quarter Oil and Chemical results exceeded the prior forecast and the stronger Chemical margins are anticipated to continue in the second half. Conversely, in the Oil segment second half results will be impacted by anticipated weaker domestic and export margins in the third quarter. Further, due to lower oil prices, 45 billion yen of inventory losses are now projected versus the 30 billion yen assumed in the prior forecast. Consolidated net income is projected to be 6 billion yen higher due to positive tax effects from the merger with Kyokuto Petroleum Industries, Ltd. in July previously assumed to be neutral. The Company reaffirms the full year dividend of 38 yen per share stated in our previous announcement.
