JX Holdings, Inc.

## **JX Holdings Again Included in Dow Jones and Morning Star Social Responsible Investment Indexes**

JX Holdings (Otemachi 2-chome, Chiyoda-ku, Tokyo; President: Takahagi Mitsunori) would like to announce its continued inclusion in both the DJSI Asia Pacific index, which represents the Asia-Pacific region of the Dow Jones Sustainability Indexes (DJSI), the leading global SRI indexes, and the Morning Star Socially Responsible Investment Index (MS-SRI).

### 1. DJSI Asia Pacific

The DJSI are a series of stock indexes jointly provided by the American company Dow Jones and the Swiss research and rating company SAM. Composite issues are selected based on an assessment from an economic, environmental, and social perspective, and the companies excelling overall in these three aspects are included in the indexes\*.

For this year's DJSI Asia Pacific index released on September 19, 156 companies (including 79 Japanese companies) out of 600 major companies in the Asia-Pacific region were selected. Continuing on from last year, JX Holdings was selected as part of this index, thus reinforcing its reputation as a company capable of long-term sustainable growth.

### 2. Morning Star Socially Responsible Investment Index (MS-SRI)

The MS-SRI is the first socially responsible investment index in Japan. In addition to being an investment standard which draws on conventional financial analysis, companies are evaluated on the basis of their Corporate Social Responsibility (CSR) policies such as social justice, ethics and regard for the environment.\* The index comprises 150 listed domestic companies carefully selected from around 4,000 in total.

JX Holdings will continue to fulfill its social responsibility as a leading global integrated energy, resource, and materials group based on the Group's management policy as it contributes to the development of a sustainable economy and society.

After first being included on April 1, 2010 when JX Holdings shares were newly listed on the Tokyo Stock Exchange, the company was selected again this September.
