Elementary School Students Observe Firefighting Drill at TG Wakayama Refinery

Fourteen fourth grade students from Arida City Itoga Elementary School observed the 44th Arida City firefighting drill held at the Wakayama refinery (Arida City, Wakayama, refinery manager: Takahiro Honda) of TonenGeneral Sekiyu K.K. (head office: Minato-ku, Tokyo; president: Jun Mutoh) on June 12.

The drill is held jointly by the local government, community and businesses and is attended each year by local elementary school students with the cooperation of the Board of Education. This year's drill was carried out under the supposition that a fire had broken out caused by crude oil spill of 60,000KL into the sea, after an earthquake of intensity 6 lower hitting the area with its epicenter located in the northern part of the prefecture.

Scope of this year's training rescuing of the injured, conducting firefighting activities by a fire car, setting up of an oil fence by patrol boats, and conducting water-spraying activities by a firefighting vessel. Through this drill the students were given an opportunity to understand the importance of emergency preparedness.

While continuously working to maintain safety and health, protect the environment and respond to climate change issues, the TonenGeneral Group believes that as a good corporate citizen, contributing to society is an important corporate responsibility.
