TonenGeneral Sekiyu Wakayama Refinery Supports Extracurricular Program at Nearby Jr. High School

TonenGeneral Sekiyu K.K. (head office: Minato-ku, Tokyo; representative: Jun Mutoh) participated in an extracurricular program for third-year students at Hatsushima Junior High School, located near the company's Wakayama refinery (Arida, Wakayama; manager: Takahiro Honda). Twenty-four students participated in the program, which was held two hours a week a total of five times from June 22 to July 18.

This is the eighth year that Wakayama Refinery has participated in the program, in which students learn about the fundamentals of the oil industry, environmental protection and safety procedures and participate in science experiments, refinery tours and training in the use of fire extinguishers under the guidance of refinery employees. The program helps students learn from a nearby company the importance of supplying energy in a safe and stable manner.

The TonenGeneral Group believes that contributing to society as a good corporate citizen while continuously working on the maintenance of safety and health, protection of the environment and response to climate change issues is an important corporate responsibility. Support for the extracurricular program at nearby Hatsushima Junior High School is one of the group's many social contribution activities.
